PARKING PERMITS

Because parking is limited, police officers will check the parking areas on a daily basis to ensure that the vehicles that are parked there are permitted to do so. To assure that you will not receive a parking summons, please obey the following:

- Parking permits must be displayed properly so that they are visible.
- Please make sure that you list any vehicle that you may use on your permit application. You can put up to three vehicles on a permit application.
- Please make sure that you have listed your correct license plate number(s). Once you receive your permit, verify that your plate number(s) are correct.
- If, during the permit year, you change vehicles, you MUST notify Town Hall at 908-647-8000 ext. 210 to make the necessary changes on your permit.
- If you are going to be using a loaner vehicle while yours is being repaired, please contact police headquarters at 908-647-1800 and advise them that the loaner is going to be in the lot instead of your regular vehicle.

Be aware, that even though you have purchased a permit, you may still be liable for the fine if you do not comply with the above mentioned procedures.

Thank you
